Legion Fair Will Bring Educational Features To Show

School Children Will Be Admitted To Grounds Free On Certain Days

On Wednesday, March 25th all white children will be admitted to the fair grounds free and all other children will be admitted for their pocket books. On Thursday afternoon the negro children will be admitted to the fair grounds free. Following the endorsement of the Committee to make each year's fair more educational and interesting, and to keep the atmosphere on a high level, great caution has been exercised in the type of show to be allowed to appear during the fair. Ride new and of many types will be on hand for the kids. Show to entertain and educate will predominate.

R. V. Allright, fiber specialist at the Everglades Station will offer the most complete display of fibers and made from fibers ever to be seen in America.

The Wild Life organization will have a special exhibit depicting Florida's wildlife, and the Air Force will have a booth for those interested in our military.

The Experiment Station will have a generous display of its activities, and both white and colored schools will be permitted to let the public see their progress and activities.

The total display space under roof exceeds 25,000 square feet with more than 10,000 feet outside buildings, and tents.

Dry Lot Feeding Data Available Each Sales Day

Some sales will be made each sales day of the steers which have been fed the market. Of those sold Monday, the average gain from Dec. 5th was 2.88 lbs. per day with the high steers gaining 3.05 lbs. per day. Received here on Nov. 1st from Oklahoma City, they reached full feed on Dec. 5th, at which time they were weighed as individuals. They started on feed as commercials and are being offered in choice lots as individuals won't make it.

The feeding program has been carried on under the direction of F. L. Ketter of the U. S. Meat Packers' Association, Columbus, Ohio, cooperated in getting these steers fattened.

Feeding trial of grade native steers resulted in gains from 1.5 lb. per day to 2.5 lb. per day — with such steers, we concluded that they could, under no conditions, be fed profitably in dry lot.

Feeding trials indicate dry lot feeding of better grade cattle can be profitable under certain circumstances, provided proper attention is given to several factors. A full report will be made later.

Cattle sold last Monday, 462 for \$30.00, 124 calves, 85 heifers, 42 cows, 51 yearlings. (Continued on Page Four)

AUXILIARY MEETS WITH MRS. HILL

Plans to have a fish fry for firemen and their families to be held at the Fire Station, Thursday night, March 12, 7:30 pm, were made by the Auxiliary.

Engineers Find Night Work Best For Accuracy

Commander D. A. Jones assisted by two Ensigns A. R. Benton, Jr., and A. B. Stokes, heads a group of 39 employees of the Coast and Geodetic Survey headquartered at Belle Glade for 45 to 60 days while triangulation work is under way in the muck lands.

The group is housed in trailers and consists of 111 persons, 28 privately owned trailers, three office trailers and 27 trucks.

More than half of the men work at night as conditions are more favorable for the very accurate instrument observations made by the engineers, after nightfall.

The Coast & Geodetic Survey is charged by Congress with providing horizontal surveys and the establishment of permanent markers. This work carries crews both throughout continent, U. S. as well as to island possessions, and protectorates.

The work of the crew now in Belle Glade covers the area south of the St. Lucie Canal, Lake Okechobee and a line drawn in a westerly direction from Clewiston and is to fill in the area between the coasts where past work has been installed. Roughly this area is contained within the Central & South Florida Flood Control District, and probably the line is being done just the necessity for frequent reference by U. S. Engineers to officially establish location and elevation markers.

Standard steel towers are erected by the crews and from a central tower, or key point, the telescopic instruments are sighted from other points from this hub by lights. Reflection at night is less than daylight, and the many times each must be checked makes it necessary for considerable night work.

Aside from the material benefit to the overall flood program the presence of these men and their families bring substantial cash outlay to the community for normal living expenses.

The third annual Policemen's Ball will be held at the Country Club on Saturday night, March 14th with Joe Horne's orchestra as the featured attraction.

The fund of the Peace Officers Benevolent Association is used towards a cabin they are erecting on the coast, as well as for other efforts of association interest.

Several community projects have been assisted financially by the Policemen, as well as adding to needed items for their own use.

When approached to take tickets from the boys, for the money is well spent and of benefit to the entire community.

In the upper right is seen the citrus grove with officials' homes, of brick. Upper left shows sugar mill, syrup mill and cane plant together with garages and warehouse space.

Lower left is shown Mrs. Mildred Tillery and her daughter, Maryann, feeding the flock of fryers being grown at the Riddle Field Farm, west of Clewiston. In the center, cabbage, and at the lower right rice heads. Rice has been grown at the Belle Glade prison for some sixteen years.

Capron Disabuses Ideas About The Seminole Indians

L. Capron noted authority and author on Seminole Indians, told Rotarians Friday many false ideas about Seminoles are commonly accepted among the public.

The Seminole has had no chief since Tallahassee, two hundred years ago there was no Seminole nation and the Indian's existence is based on a Matriarchy, and also the Seminole hasn't been conquered by Uncle Sam.

The purpose of the corn dance, which is forbidden except to tribal members, is held in a most inaccessible spot, and is for the purpose of giving life to and supporting the medicine bundle.

During the Indian wars of Florida seven American Generals were recalled, 3,000 lives were lost with 50,000 or more soldiers, sailors and marines engaged in the purpose of giving life to and supporting the medicine bundle.

Mr. Capron warned against a tendency on the part of Washington to set the Indian up with his own farm, equipment, etc. as a gesture towards his freedom.

"The Indians must be freed for such action," said Mr. Capron, "and he has not yet reached that stage of education to make it sensible to turn him loose."

Kollege Kitchen Kookin' Kums To Belle Glade

A group of local merchants including a gas appliance distributor, a milk purveyor, a grocer and a furniture dealer, are combining resources to bring to Belle Glade next Tuesday at 2:15 pm, March 10th Mrs. Kenneth Frazier, an educated and experienced cook and lecturer, who will demonstrate plain and fancy, salad making, pie baking, meat preparation and substantial food items, at the Legion Hall.

Mrs. Frazier was a professional at such demonstrations before she married and became the mother of two children. Her husband was recalled to active service and is now serving in the Air Force.

Mrs. Frazier will teach young brides that cooking isn't such a chore, and she will also teach them the art of entertaining. Now that the children are either married or away at school, and Mrs. Wells' ailments greatly improved, the old days in the muck served as a magnet, and so they returned.

The home on West Palm Beach Road has been reworked and will find the Wells ready to enter into community life more fully than has been possible with home somewhere else.

Earle Brown To Address Local Chamber Dinner

The Belle Glade Chamber of Commerce announces that their annual membership dinner will be held Friday evening 7:45 pm, March 20th at the Belle Glade Country Club. The dinner as in the past will feature Glades grown products and is open to the public.

The nature of the evening will be an address by Mr. Earl Brown, president of the Florida State Chamber of Commerce and well known in the advertising and exhibition field. There will be a number of door prizes presented this year rather than just one as in the past.

The dinner will be prepared and served by the St. Phillips Altar Society of Belle Glade. Both State and County Legislators are expected to attend as well as representatives from several County Chambers of Commerce.

Arthur Wells and family return to Glades as home.

West Palm Beach in winter and Hendersonville, N. C. in summer were found to be very helpful to Mrs. Wells' health.

Now that the children are either married or away at school, and Mrs. Wells' ailments greatly improved, the old days in the muck served as a magnet, and so they returned.

MRS. BRAVALDO ENTERTAINS FOR HER DAUGHTER
Mrs. A. H. Bravaldo, entertained recently, honoring her daughter, Sue, on her fifteenth birthday. The party was held at Paradise Park from 7:30 pm to 10 pm.

Many lovely gifts were presented to the honoree. Games and dancing were enjoyed during the evening after which cake and ice cream, colors of yellow and green, were served to 65 school mates and guests.

SOCIAL SECURITY MUST HAVE REPORTS MADE
"Mr. R. C. Gehrkens, Jr., manager of the West Palm Beach office of the Social Security Administration, announced today that most self-employed persons under 75 who received social security payments during 1952 must file a report with the Social Security Administration by March 15, showing their net earnings during 1952, if they amounted to more than \$100.00 during the year from a trade or business that is covered by the Social Security Act."

Another group required to file this report are those who had their checks stopped during 1952 because they were self-employed," Mr. Gehrkens said.

"If the self-employed person received social security payments in 1952, a member of the family, a representative of the estate, or other in the interest of the individual should file this report," Mr. Gehrkens emphasized.

He added, "This report is different from the one that is filed with the Director of Internal Revenue. If you notified the Social Security Administration during the year that you were navigation facilities, The Real-

self-employed, a form to use in making the report of your net earnings will ordinarily be mailed to you. However, if you do not get one through the mail, you may get one at any social security office."

Mr. Gehrkens explained, "We need this report to know how many months a self-employed person who worked for wages," Mr. Gehrkens concluded.

CLEWISTON IS MADE AREA OFFICE FOR U. S. ENGINEERS
In the interests of economy and efficiency, two field offices of the Army Engineers engaged on flood control work in Central and Southern Florida will be consolidated on March 16th, Olin H. W. Schall, Jr., the District Engineer, Jacksonville District, reported today. Affected will be the Project Office, presently located in Miami Beach and the Resident Office located in Clewiston, Fla.

The new office, to be called an Area Office, will be located at Clewiston. Mr. George R. Coslow, the Project Engineer at Miami Beach in charge of construction of the Central and Southern Florida Flood Control Project will be the new Area Engineer.

The assistant Area Engineer will be Mr. Albert R. Broadfoot, currently the Resident Engineer at Clewiston in charge of maintenance of the Lake Okechee government flood control and navigation facilities. The Real-

estate response, too... you don't have to turn the steering wheel so much to turn the front wheels. It's safer all around.

Clewiston known as Section I of Levee L-1.

"With the shifting of the center of gravity of our construction operations toward the Lake Okechee agricultural area," Colonel Schull stated, "we found that it would be better to concentrate the field forces closer to the work. The new area of levee will utilize the existing facilities on the government reservation at Clewiston which must be kept operational because of the Federal government's responsibilities for maintaining the Lake Okechee levee system."

The above changes in field organization will in no way affect the Central and Southern Florida Flood Control Project which will continue to be administered from the Jacksonville office of the District Engineer.

LUTHERAN MEN WARNED TO WATCH PANTS AND SHOES FOR FEW DAYS

The ladies of the Lutheran Church are bound to do something to bring in a little hard cash for their church activities, and the idea of a rummage sale was accepted. Naturally they want the public to be notified so that purchasers will be on hand.

I know of no better way to help the Lutheran flock than to warn its male members about the clothes and shoes put away in the closet, for the ladies just must have that rummage sale and the distinction between use-able clothes and rummage on such an occasion is not always too clearly defined.

So if the boys don't watch those clothes there's bound to be some real bargains at that rummage sale. It might even be wise to look around the sale early and try to retrieve the favorite tie, pair of shoes or extra coat for as little as possible. There's bound to be some bargains at this sale.

The Struggle Of Christianity In English Church

"The Church in England" will be the topic Sunday night at 8 o'clock of the Belle Glade Episcopalians at the home of E. D. Lively, 100 N. W. Ave. F. This is the third of Father Petrie's discussions of Highlights in Church History. It will tell of the origin of Christianity in England before the arrival of Augustine from Rome, of the subsequent acceptance of the Roman view of Catholicism, and of the struggle that went on for centuries between the English crown and the papacy.

Father Petrie is also preaching a series of sermons on "The Problem of Evil" on the Sunday mornings of Lent in Pahokee at 9 and in Clewiston at 11. His topic next Sunday morning will be "The Fathers Have Eaten Sour Grapes" and will describe Ezekiel's rejection of the sour grapes of the prophet Jeremiah.

CIRCLES MEETINGS ARE HELD BY WSCS

WSCS Circles of the Community Methodist Church met on Wednesday afternoon. The last few chapters of the study book, "Towards Understanding the Bible," were discussed.

Mrs. Clara Gledhill is in charge of the program of the Mary-Martha Circle, at the home of Mrs. C. E. Maynard. Mrs. Ralph Freeman gave the devotional, and Mrs. D. C. DeWeese presided over the business meeting. Others present were Mrs. Clarence Kidder, Mrs. Robert Allen, and Mrs. C. A. Bailey.

March 26 meeting will be held at the home of Mrs. Ralph Freeman.

The Ruth-Naomi Circle met at the home of J. I. Freedlund with Mrs. M. M. Sabiston giving the devotional, and Mrs. C. A. Thompson in charge of the business meeting.

It was announced that a district meeting will be held March 17, at the Wagg Memorial Church, West Palm Beach.

INTERNATIONAL SUNDAY SCHOOL LESSON—March 8, 1953

"Jesus Urges Alertness" Matthew 25:1-13

INTRODUCTION:

This lesson follows last week's prediction of Jerusalem's Judgment (ch. 23:37-39).

AIM:

1. To discover the tragedy of unpreparedness.
2. To emphasize the necessity for being watchful.
3. To recognize the necessity for being aware of both good and evil situations and opportunities about them.

CONCLUSIONS:

1. Believers are to live in a constant state of preparedness for the return of our Lord.
2. There may seem to be some delay in the return of Christ.
3. If you are not ready at His return it will be too late to get ready.
4. Some who make a profession now will not be included.
5. No man knows the day or hour, so be ready; watch and pray!

THIS WEEK'S SERMONETTE

ELDER, FRED ROBBINS

First Baptist Church of Chosen

The Best News in the World
"How that Christ died for our sins according to the scriptures; and that He was buried, and that He arose the third day according to the scriptures" (1 Cor. 15: 3, 4).

The best news the world ever heard is not considered of great news value to most men, it is not about something that just happened yesterday. It is of supreme importance and should be an immediate concern to us, as if it had just been released in the latest news flash.

This "Good News" is the gospel of Christ. The word Gospel means good news and it's story is the best news anyone ever received. All the world, and that includes all of us, is "under sin" (Rom. 3:9), "guilty before God" (Rom. 3:19), "under the curse" (Gal. 3:10); and "without excuse" (Rom. 1:20). By nature we are "children of wrath" (Eph. 2:3), "without Christ, being

aliens from the common-wealth of Israel, and strangers to the covenants of promise, having no hope, and without God in this world" (Eph. 2:12). We are "dead in trespasses and sin" (Rom. 2:3) "and cannot please God" (Rom. 8:8).

The gospel of Christ declares unto us "How Christ died for our sins according to the scriptures." "He gave Himself for our sins that He might deliver us" (Gal. 1:4), and that He "might redeem us from all iniquity" (Titus 2:14). He took our place as a sin-offering that He might meet every requirement of God's law, and thus provide a just ground upon which God could be just, and the justifier of those who believe on Jesus. (Rom. 3:26) Because of our sins we are under the curse, and He took our place under the curse to redeem us from it (Gal. 3:13). This Good News becomes "the power of God unto salvation" (Rom. 1:16) but only to those "who believe."

GEMS OF THOUGHT

Glory

The glory of human life is in overcoming sickness, sin, and death — Mary Baker Eddy.
Let him that glorieth glory in this, that he understandeth and knoweth me, that I am the Lord which exercise loving-kindness, judgment, and righteousness, in the earth; for in these things I delight, saith the Lord. — Jeremiah 9:24.

Real glory springs from the silent conquest of ourselves. — Thompson.

True glory consists in doing what deserves to be written; in Merit what deserves to be Bech.

read, and in so living as to make the world happier and better for our living it. — Pliny.
By skillful conduct and artificial means a person may make a sort of name for himself; but if the inner jewel be wanting, all is vanity, and will not last.
Our greatest glory consists not in never failing, but in rising every time we fall. — Goldsmith.

The largest and most perfect grove of royal palm trees on this continent is found at McKeel Jungle Gardens near Vero Beach.

SOUTH BAY FIRE DEPT. GETS SEVERAL WORKOUTS

The South Bay Fire Department was called out two day in succession last week.

Frank Willis responding to the fire siren with Chief Med Willis found to his surprise the fire was at his own house.

Electric service wires leading from the house to the garage had in some manner become detached from their point of contact and one of them had fallen across a guy wire to the TV antenna, causing a short circuit, and setting fire to the attic.

Prompt action on the part of the fire fighters soon had the fire under control without extensive damage except for water damage to the interior of the house and furnishings.

The fire truck was called out the next day to extinguish a fire in a car parked along the highway while the driver was at work in an adjoining field.

Fire Chief Willis reported that apparently the fire had started in the back seat and he theorized that the driver had thrown a lighted cigar from the front window which had been smoldering in through the rear window and landed in the back seat where it smoldered undetected until it finally caught fire.

SCHOOLING OF MIGRANT CHILDREN IS STUDIED

Mrs. Amber Warburton and Mrs. Charles Weston, representatives of the National Council on Agricultural Life and Labor, which is making a nationwide study on the education of children in migrant agricultural workers families, with headquarters in Washington, D. C., spent ten days at the Willis Motel while working in the South Bay-Belle Glade area.

Their survey centered around the Okeola Farm Labor Camp School where they worked for the better education of children of migrant families.

They have now moved on to Cypress Lodge to carry on their work in the Canal Point-Pahokee area.

Their work was entirely among white children. Another worker will be in this area shortly to work among children of migrant negro families, they reported.

GARDEN CLUB WILL EXCHANGE PLANTS

The regular meeting of the South Bay Garden Club will be held at the Legion Hall, March 11 at 3 p.m. Members are urged to attend. There will be a plant exchange.

SPEED, WHISKEY AND NO LICENSE GREATEST WORRY TO FLA. PATROL

Speed, no driver's license and whiskey combined were the top three causes for state highway patrol action against drivers on Florida highways in 1953.

The patrol charged 12,765 questions or problems concern-

ing scouting bring them to Mrs. McCormick and she will gladly assist in any way.

Plans for a Girl Scout cookie sale were discussed, and will be held last week in March.

All Girl Scouts are urged to meet at the Fire Station, Saturday, March 7, at 2:30 p.m. This will be the starting of "A Clean Up and Fire Prevention Campaign."

Brownies not having membership cards are to use their pins as passes, scouts to use membership cards. The girls will start the campaign riding the fire engine to the Scout Hut. Fire Chief Lawrence Will, in charge of demonstrating the proper use and handling of fire extinguishers, will tell the girls their duties, in the clean up program, and what to look for in the way of fire hazards.

All girls being at the Fire Station on schedule, with membership cards or pins, will receive call (collect) for two weeks, has several purposes: to interest the girls in Community affairs, and safety precautions, as well as creating more interest among the adults.

Three hundred and fourteen were arrested on charges of passing a school bus as it displayed 2,454 for having improper or no lights at all.

All told, the patrol arrested 41,685 — including 1,402 persons on charges of public drunkenness — and wrote 51,580 warnings.

Activities of Glades Scouts

Mrs. A. B. McCormick announces that starting March 11, she will hold open workshop at the Scout Hut each Wednesday, 10 am to 5 pm. All adults interested are welcome, and Scout leaders should attend as often as possible.

Due to the lack of attendance in the adult training class for scouting, the meetings have been discontinued, however persons interested can attend on Wednesdays.

Those intending to spend the day, should bring a "nose bag lunch." If you have any ideas, questions or problems concern-

ing scouting bring them to Mrs. McCormick and she will gladly assist in any way.

Fire Chief Lawrence Will, in charge of demonstrating the proper use and handling of fire extinguishers, will tell the girls their duties, in the clean up program, and what to look for in the way of fire hazards.

All girls being at the Fire Station on schedule, with membership cards or pins, will receive call (collect) for two weeks, has several purposes: to interest the girls in Community affairs, and safety precautions, as well as creating more interest among the adults.

Three hundred and fourteen were arrested on charges of passing a school bus as it displayed 2,454 for having improper or no lights at all.

All told, the patrol arrested 41,685 — including 1,402 persons on charges of public drunkenness — and wrote 51,580 warnings.

Speed, WHISKEY AND NO LICENSE GREATEST WORRY TO FLA. PATROL

Speed, no driver's license and whiskey combined were the top three causes for state highway patrol action against drivers on Florida highways in 1953.

The patrol charged 12,765 questions or problems concern-

ing scouting bring them to Mrs. McCormick and she will gladly assist in any way.

Plans for a Girl Scout cookie sale were discussed, and will be held last week in March.

All Girl Scouts are urged to meet at the Fire Station, Saturday, March 7, at 2:30 p.m. This will be the starting of "A Clean Up and Fire Prevention Campaign."

Brownies not having membership cards are to use their pins as passes, scouts to use membership cards. The girls will start the campaign riding the fire engine to the Scout Hut. UP GOES THE POWER OF EVERY BUICK Special Super and Roadmaster!

World's newest V8

Television treat — the BUICK CIRCUS HOUR — every fourth Tuesday

It's more than pride that makes a man want a lot of horsepower beneath the hood of the car he owns.

For the real point in reaching record horsepower and compression ratios goes beyond miles per hour. It steps up performance and economy in normal driving.

That's what Buick engineers did when they upped the power and compression of each 1953 Buick — SPECIAL, SUPER and ROADMASTER — to the highest figures in Buick's fifty-year history.

In the SUPER and ROADMASTER, they put a new kind of V8 Engine — first passenger-car V8 with 8.5 to 1 compression, and a long list of other major engineering advances.

For the SPECIAL, they redesigned the famed F-263 Fireball 8 Engine — gave

shorter flame travel, faster firing, higher horsepower and compression. And to these spirited engines they coupled the new Twin-Turbine Dynaflow Drive* that adds flash-fast, quiet getaway to utter smoothness.

Just to give you an example of what all this means: The 1953 Buick SPECIAL with Dynaflow can beat the mighty 1952 ROADMASTER on getaway — can reach 30 mph (when the law allows) with a combined speed and jerk-free smoothness no other car can equal.

Of course, there's far more to these new Buicks for 1953 — some seven dozen new features alone.

Just why not come in and see for yourself — these are the greatest Buicks — and the values — in fifty great years.

*Standard on Roadmaster, optional on other Buicks.

(no cost or obligation)

More than 50,000 people are expected during the nine-day run of the big show, according to Lane Allen, Fair director. Arrangements have been made to handle traffic on the "back roads" so that visitors from coastal cities may use State Road 7, Military Trail and Congress Avenue to reach the grounds. State Highway patrolmen, sheriff's deputies and city police will assist, and parking will be ready for more than 4,000 automobiles at one time within the Fair Grounds.

All the features of an old-fashioned county fair, with special attractions for the kids and the winter visitors, have been arranged. There will be prizes every afternoon and evening and free acts in front of the grandstand and along the midway.

Twelve of the finest and newest riders will be here, with nearly five acres of fun-land. School kids will have three big days. Scouts and any other youth organizations will be admitted free during the first Saturday. Schools from all over the county will exhibit in four big tents. The second afternoon will be free time for school children. The second Saturday will be Children's Day and special

events will be announced later. Cooking schools will be daily affairs with sessions in the afternoon on Saturdays and evenings during the week. There will be live television broadcasts and visitors to the fair grounds will be able to see themselves on a TV screen while they are being photographed by a special camera. There'll be radio broadcasts which will include interviews with fair visitors. There'll be movies, dioramas and Betty Klawns.

Three times as much space as ever before has been set aside for exhibits. Sacred cows from Florida's finest ranches and 4-H Florida Brahman strain will be shown in the cattle tent along with blooded stock from some of Florida's finest ranches and 4-H winners from the state competitions. Everglades vegetables, ramie, kenaf, sugar cane, tropical fruit and the varied produce of the rich coastal farms will be produced.

Produce of the county's industries, commercial, home building and electrical equipment will be on display, many of them for the first time anywhere. Armed forces will show how air-borne teams have to work in the jungle with a realistic display of equipment in a natural tropical setting. Displays of fish and game from over the state, flood control and water conservation work, state forestry activities, and an elaborate 1,000 square-foot demonstration of the work of the Everglades Experiment Station will be on exhibit. ever to show in Palm Beach County will be on parade at the Fair grounds with special shows both afternoons and evenings.

Speedway officials have scheduled three exceptional races. The midweek cars will be shown for the first time here in preview Friday night and will stage a National AAA sanctioned race Saturday night at 8 o'clock after two hours of time trials. Wednesday night's race will be the Modified Winter Championship NASCAR race sponsored by the Junior Chamber of Commerce and Saturday night there will be a 100-mile, 200 lap Team Race for sportsmen and modified cars.

Florida Greyhound bus service will run at frequent intervals from downtown West Palm Beach to the Fair Grounds and eastbound buses will stop there. All buses, special or cross-state, will stop on signal at any corner on South Dixie or Southern Boulevard to pick up and discharge Fair Grounds passengers.

American Red Cross will furnish first aid equipment and personnel on the grounds throughout the nine-days of the fair.

Too Late To Classify

By Russell Kay

A dramatic presentation of facts and figures in the New York Journal American recently showed that America's standard of living far surpasses that of four other countries on both sides of the Iron Curtain—Russia, England, France and Italy.

In each of these countries a worker's buying power was computed in terms of wages and prices in his country. The information was carefully compiled by correspondents stationed in the capital cities of each country.

We may gripe about the high cost of living, but compared to the rest of the world the American worker is so much better off that he is in a class by himself.

The American wage earner lives better and receives more for his money than anywhere else in the world. With their wages, Americans buy more and better food than citizens of Russia, England or Italy.

The average bus driver in the United States works an average of 35 minutes to pay for a pound of butter. In England a worker must stay on the job 48 minutes to earn the same amount of buying power. In France, 1 hour and 54 minutes—in Italy 2 hours and 36 minutes.

But in Russia, which would have the world believe its workers enjoy every advantage and are better off than the poor downtrodden slaves of a Democracy, a bus driver must work 14 hours and 30 minutes to earn enough money to buy a pound of butter.

For a pound of coffee, an American auto mechanic works 23 minutes, an Englishman 1 hour and 36 minutes, a Frenchman 1 hour and 42 minutes and an Italian 5 hours.

In Mr. Stalin's workers' paradise a Russian auto mechanic must labor 17 hours and 36 minutes to earn enough money to buy a pound of coffee. He can find one to buy about 46 times as long as an American.

Before you go gaga over the blessings of the Soviets or join the Communist Party you better decide whether you would rather work 33 minutes to earn enough to buy a pound of coffee or would prefer to work 17 hours and 36 minutes as the Russian worker does.

The same ratio applies to just about everything else, clothes, shoes and shelter; and while the buying power of other workers is far less than ours, the quality of the goods or services they buy with their money is much poorer than the American product.

Safe at 3rd!

These Red Cross volunteers Gray Ladies are having as much fun as the patients of this hospital, program for mentally ill patients.

Less electrical power and fewer mechanical tools make it impossible to have a high level of production in Russia, or a high standard of living. While in America about 7½ kilowatts of electricity power and energy is available for each worker, the Russian correspondent reports.

In this country, the constant demand for more power is being met by the nation's electric power industry. Here in Florida, for example, the Florida Power & Light Company plans to expand and enlarge its statewide facilities during the next nine years with the investment of \$332 million dollars. Thus this one company will be capable of pouring into the state 1,405,000 kilowatts of vital electric power by Jan. 1, 1962 to be used in building bigger industries and better homes.

No electric refrigerators can be bought by Russian workers yet you find them in most American workers' homes today. The few Russians who can afford a radio can purchase a battery set for the equivalent of about two months' work. However, the cost of the average Russian battery set is so poor that such sets, because of inefficient manufacturing methods and inferior material and workmanship, wear out quickly and seldom give any satisfaction to the owner.

The average Russian worker cannot afford any kind of automobile. Only the Commissars and bigwigs of the party ride in cars. In fact the survey conducted by the New York Journal American reveals that workers in none of the other countries can afford even a small car.

while American workers all have them.

The American Way, the free enterprise system, enables this country to produce more and better quality products that are priced so that the working man can enjoy them at minimum cost.

America may not be perfect, but Brother I'd rather be a tool of Capitalism and a wage slave in this country than one of Joe's so-called happy carefree workers.
